DETAILED ACTION

Claims 1-3 and 5-10 are pending.

Claims 4, 11 and 12 have been cancelled by the applicant without prejudice or disclaimer.

Response to Amendment

The examiner acknowledges and approves both the amendment to the FIG.1 drawing, and to the specification as outlined in the applicant's response.

Allowable Subject Matter

1. Claims 1-3 and 5-10 are allowed.

The following is an examiner's statement of reasons for allowance: The reference art of McClure et al., U.S. Patent No. 5311473, Uchida, U.S. Patent No. 5579272, and Tomishima et al., U.S. Patent No. 5838627, teach a multi-bit test circuit for determining a match in data within a memory, with determining circuits for comparing data out of the memory in pairs of bits and the bits being within at least 3 groups, outputting a final output signal indicating the result. However, the prior arts of record taken alone, or in combination failed to teach, anticipate, suggest, or render obvious the claimed invention of the application. Specifically, as per Claim 1, the prior arts failed to teach, anticipate, suggest, or render obvious the limitation introduced into these claims, namely: the groups are compared with a data bit in each of other two groups. Consequently, Claims 2-3, and 5-10 are dependent directly or indirectly upon Claim 1, and are therefore also

allowed. In total, Claims 1-3 and 5-10 are allowed, and are to be renumbered as Claims 1-9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
